

SolarTuff®

Lembar Atap Polycarbonate Bergelombang
**Ringan Namun Kuat
dan Mudah Pemasangannya**

Corrugated Polycarbonate Roofing Sheet
**Strong but Light Enough
to Give You Ease of Installation**

Ringan namun kuat dan mudah pemasangannya

SolarTuff® merupakan lembar atap polycarbonate yang dirancang khusus untuk memberikan berbagai keunggulan kepada Anda seperti semua produk plastik keluaran P.T. Impact Pratama Industri, produsen plastik terkemuka di Indonesia.

Meskipun ringan, SolarTuff® sangat kuat dan handal karena terbuat dari polycarbonate yang memiliki 250x lipat kekuatan kaca dan 20x lipat kekuatan acrylic.

Dengan demikian, SolarTuff® memberikan kemudahan pemasangan atap tanpa memerlukan konstruksi yang rumit dan berat, sehingga menghemat waktu dan biaya Anda.

Strong but light enough to give you ease of installation

As one of the products manufactured by P.T. Impact Pratama, the leader in consumer plastics, SolarTuff® definitely gives you many advantages beyond any other plastic roofing sheet.

SolarTuff® is specifically designed to be light-weight to give you ease of installation, and hence saves you a lot of time and cost from complex and heavy roofing construction.

Just because it is light-weight, we are not giving you a second-rate product, but instead, SolarTuff® is very strong, tough and virtually unbreakable. Polycarbonate – in comparison, is 250 times and 20 times stronger than glass and acrylic respectively.

Anti Sinar UV untuk mempernyaman rumah Anda

Agar rumah Anda semakin nyaman, SolarTuff® juga dilengkapi dengan lapisan anti sinar UV matahari agar keluarga Anda dapat beraktifitas dengan bebas dan nyaman.

Anti UV-light to add more leisure for your home

An additional anti UV layer is added to SolarTuff® to give you the freedom and comfort for daily activities inside or outside your home, even under hot temperature.

Lengkap dengan berbagai warna dan bentuk pilihan

Dengan terus berkembangnya trend warna dan bentuk arsitektur rumah, SolarTuff® selalu diperbaharui dengan berbagai warna pilihan yang paling up-to-date dan modern serta pilihan profil yang bergaya untuk melengkapi berbagai arsitektur rumah Anda.

Comes with more choices of sophisticated colors and shapes

As the trend of color and shape in architectural world changes everytime, we always update our collection in colors to give you the most up-to-date choices of beautiful colors and shapes of roofing profile Roma, Greca, Trimdek and Flat, to suit all kinds of your home design.
